Selwyn Support Connector Services

The Selwyn Foundation ("Selwyn") has contracted Age Concern Auckland to provide the Selwyn Support Connector Service ("Selwyn Connectors") in the West, Central and Northern suburbs of Auckland and Te Whare Ruruhau o Meri in South Auckland.

The purpose of Selwyn Connectors is to:

- Be informed by the work of their host organisation of the vulnerable older people whose essential needs of everyday living are not being met.
- With the consent of the identified older people, provide them and their key family/whānau supporter with information about services that could assist to improve their everyday life.
- With the consent of each of these older people, connect them and their key family/whānau supporter with the above services they wish to pursue.
- As required by these older people, support them into the service and journey with them until they and their key family/whānau supporter feel confident to self-manage the relationship.
