

Welcome from your Chaplain

Our vision

As Chaplains, we work alongside Selwyn staff to nurture a community culture of care for the wellbeing of all those in our villages.

Our particular work is pastoral and spiritual care. “Spiritual” is not the same as “religious”. Spiritual wellbeing is all that supports our sense of purpose, meaning, and value in life. “Religion” is one way people may share and express their sense of purpose, meaning and value with others in community. We are also here to support you through particularly challenging times with illness, disability, grief, life changes, broken or estranged relationships.

Our care for you may be as simple as taking time to be present with you, celebrating your joys and listening to your concerns. Or you may need specific support in difficult or challenging times in your life.
